

Proc 14508_Burning DATA DVDs (iMac)

1. On rare occasions it may be necessary to burn a video file to a Data DVD.
2. It should be remembered that while such files can be viewed using the i-Movie application on a Mac computer, they might not be able to be viewed on some consumer DVD players.
3. To burn a video file to a Data DVD, first insert a blank DVD disc into the Mac.
4. Drag the file you want to burn onto the blank disc icon in Finder.
5. Click "Burn."
6. When finished, eject the disk and label it properly.
